

Surface Level O2 (SLO2)

- SLO2 is for Altitude Chamber Induced Bends Pain Only
 - Pain In, or Within 2 hours of Exiting, the Chamber
 - Not for Paresthesias, Neuro, CNS, Chokes
- This Treatment is NOT Recommended for Diving Bends
 - May have recurrence rate of over 30% in Diving DCS!
- 100% O2 by Tight Fitting Mask, Hood, or Reservoir System
- Standard: Successful if Sx Resolved After 2 Hrs of O2
- I Recommend: O2 for **at least** 1 Hr after All Sx Gone
 - Minimum of 2 Hours of O2 (Even if Resolved on Descent)
 - Maximum of 3 Hours of O2
 - If Sx Worse or Recur- Begin TT5/TT6 Immediately
 - If No Improvement in 30-60 min, Consider TT5/TT6
 - If Not Completely Resolved in 2 Hr, Go To TT5/TT6
